

**Tristan Goguen,
Founder and President**

In 1995, before the Internet was part of the Canadian lexicon, Tristan Goguen founded Internet Light and Power Inc. as a full service business Internet Service Provider. Tristan saw the potential in providing customized, corporate business solutions at a competitive price to organizations across North America. Currently Internet Light and Power Inc. serves a broad client base in a variety of sectors, including entertainment and media, manufacturing and engineering, retail, financial services and arts and education.

Tristan has become a leading resource on the Internet and consults with corporations seeking to improve their Internet strategy. He speaks on the topics of Telecommunications, E-business, and E-mail solutions. Tristan has ten years of computing experience with various Unilever companies. He was responsible for managing the North American portion of the corporate email network. Tristan holds a Business Administration degree from Trent University.
